

AbFabFit Club (Gunpowder) Limited Field Station, Gunpowder Park,
Sewardstone Road, Waltham Abbey, Essex, EN9 3GP

24th May 2021

Dear Sir/Madam

Re: Erection of Canopy at Field Station Gunpowder Park, Sewardstone Road, Waltham Abbey, EN9 3GP

We are seeking planning permission to erect a semi permanent canopy over the rear of the Field Station at the above location.

Since the onset of social distancing due to the pandemic and the desire of many of our members to train outside we need to keep them safe from the virus and weather elements in terms of comfort and safety.

The erection of a canopy will keep the concrete floor dry and non-slippery and protect from rain, snow and excessive heat in the high summer while allowing us to maintain a good distance between enough members to keep our business viable.

The canopy is a high spec design that uses cantilevers to ensure maximum coverage with minimum ground contact as detailed in the document GP Canopy Plan.png. It can be completely dismantled without material residue if we ever leave the premises and has been agreed by Lee Valley Parks Authority. Contact pley@leevalleypark.org.uk

There has been no objection stated in the pre-app prepared by Alistair Price EFDC Planning Officer as detailed in document Pre_app ref EF\2020\ENQ\00937 Abfabfit club, Gunpowder Park

It is very important to the viability of our business that we can put on training classes for enough ladies while keeping them safe and comfortable so we ask that you consider our application favorably and as soon as possible.

Yours sincerely,

Jaine Alderson - Founder & Director
