Theydon Bois (Draft Policy P 8)

No

Please provide reasons for your view on Theydon Bois:

that side of the village is already too crowded with out adding more property's and traffic The site at coppice row is a much better option as it is on the edge of the village and will cause less disruption during and after the build. the coppice row site already has falling down buildings on it why would you want to ruin people view over the Dukes avenue side when there is land that would improve the look of the village at coppice row, the old concrete buildings on coppice row make it more brown field than green belt. The coppice row site would be in keeping with our village character as many of the properties in coppice row and piercing hill back on to the forest so using the forest as our boundary would make sense. The suggested site is used for people's leisure for walking and playing so why would you choose that over coppice row which is unused and needs to

be improved and over all would cause the least amount of disruption to our village. Coppice row is the only sensible choice in Theydon Bois
