8. An Interim Sustainability Appraisal has been commissioned to support the Draft Local Plan. We would welcome any comments you may have on this.

Transport and parking are already at capacity. Underground is well over during peak times affecting my children's ability to get to schools and mine to get to work. Existing road and network of buses is insufficient therefore this would only add to congestion which is already painful and limiting for the village. This would add time to car journeys and additional discomfort on the underground. Damaging the green belt cannot be considered sustainable to our local wildlife and decent standard of living in the village. We cannot lose our green belt.

9. Do you wish to comment on any other policies in the Draft Local Plan?
