### Letter or Email Response:

I am very opposed to all the proposals that have been put forward by The District Council . We must prevent urban sprawl and safeguard our open spaces for recreation and outdoor sports etc ,it is very important we all have access to high quality open space and retain the landscape, it is a vital contribution to the health and well being of our community, The loss of this valued open space and facilities will not promote a healthy and happy community . We are so fortunate to have all this public space . I am surprised our District Council have not attached greater importance to our lovely green spaces .Stop trying trying to build into our already crowded town . I hope this helps matters
