### Letter or Email Response:

Dear Sir / Madam, I am Mr K C Mistry, we live **...Redacted...** nearer to Jessel Green for two years. We heard that EFDC's proposal for putting 195 houses on this Jessel Green. We are very sad and surprised to hear this news as we regularly use Jessel Green for walking, running, taking grandchildren to play area and have picnic afterward, also attending much loved community events taking place there. Other councils are planning and creating new garden for encouraging people to walk, exercise, running and picnic as well for good environment and you taking away from us. We have not got many open space as valuable as Jessel Green where everybody can benefit and enjoy it. All these open space looks lovely, attractive adds beauty to surrounding area. We don't know much about Loughton or Debden area, but when we came to look houses here we liked the area it looks nice and green, open more attractive beautiful everything we wished and we bought the house near Jessel Green. If you build these 195 houses here the whole area will be ruined and all the people living around around the area will be sad and disappointed. Please save our Jessel Green, build houses where unused land or run down industrial places where nobody go. Thank you for listening to us. Regards. **...Redacted...**
