Letter or Email Response:

To Whom it may Concern, I am writing this letter of OBJECTION, as I feel the plans that have been published are totally unreasonable. Living on **...Redacted...** for 10 years the traffic and parking has become unbearable so increasing the housing will cause even more disruption to the following, traffic flow on **...Redacted...** and adjusted road as people will start cutting through **...Redacted...**. The existing roads cannot take any more amount of traffic. We put up with grid lock, abusive language from drivers, commuter parking, pollution and danger to school children that walk to school every day to Ivy Chimneys and Coopersale Hall School. There are problems to the emergency services that can't get there vehicles down the roads and streets. The schools are already oversubscribed and children won't be able to get in to their local schools increasing the traffic commuting to other schools in the areas will just become a headache to everyone and children safety will become a problem. The doctor surgeries are already overwhelmed and increasing the amount of people whom with come and live in the local area it will become a total nightmare. Having recently been in to The Limes where I had to wait with a 4 year old both times over 80 mins for his appointment this is totally unacceptable. Plus they had received a total amount of calls of over 25hrs there in a day I'm not sure how that will cope with anymore increase. Parking in Epping is a total nightmare there is a limited amount of parking at the tube station which then spreads out in to local roads causing families to struggle to park near to their homes. The land at the bottom of Ivy Chimneys and Brook Road is prone to flooding, drainage, and sewers will not be able to handle your proposal of 1,633 homes. This is going to have a huge impact not just my life but on the community and the children which are today's future ... Kind regards **...Redacted...**
