Letter or Email Response:

I have just read your views on Loughton Town Council. I strongly disapprove of using the green at Jessel drive for building more houses. These green places are very important to our community. They are needed for our children to be able to move and play on, maybe have a picnic with their friends or play ball games. This green is also used in summer to hold fairs on which makes a good day out for the family with their children, which the children love. It is also very healthy for them being out in the open air. There are no big parks here, only a few swings and a round-about and climbing frame in. Children need these green places especially they don't have much of a garden for ball games. I hope you will give this some thought and think of the children and people especially in Jessel drive.
