This document has been created using information from the Council's database of responses to the Draft Local Plan Consultation 2016. Some elements of the full response such as formatting and images may not appear accurately. Should you wish to review the original response, please contact the Planning Policy team: ldfconsult@eppingforestdc.gov.uk

Letter or Email Response:

I have been using Jessel Green for over 50 years. I still use it everyday for walking my dog sometimes twice a day, sometimes once. My Granddaughter is now using the green making three generations of the family to enjoy the open space and safety. This green is also used by pupils from the four schools adjacent to this area to get to and from school safely. The green provides a vital green breathing space for the local community who also use it to meet with friends most days. The local infrastructure cannot cope with the amount of vehicles already in the area and does not have the capacity to cope with more vehicles. Also the condition of the roads surrounding this area are in a dire condition with all of the surfaces having not been repaired or replaced in many years. My own road has not had a surface dressing in over 20 years. Rochford Green is also an area which is much used to get from one side of the estate to the shopping area safely and comfortably. I used to use the park in the area as a child. Loughton has a full capacity of residential properties and schools and doctors surgeries cannot cope with a influx of persons represented by the proposed increases. Public parking is at a premium already so a loss of any parking with the increased vehicular traffic from the propose developments in the area would make it even more difficult for people to park outside their own proprieties. Mrs Christine Harman
