

Epping Forest District Council Representations to the Draft Local Plan Consultation 2016 (Regulation 18)

Stakeholder ID	3452	Name	Kai	Kermani
Method	Letter			
Date	28/11/2016			

This document has been created using information from the Council's database of responses to the Draft Local Plan Consultation 2016. Some elements of the full response such as formatting and images may not appear accurately. Should you wish to review the original response, please contact the Planning Policy team: ldfconsult@eppingforestdc.gov.uk

Letter or Email Response:

Re: the proposed total vandalism of local amenities by the council's proposals As a long term resident of Loughton, I have been horrified, appalled and totally disgusted by the proposal by the planning department of our council. You are proposing to build on virtually every car park in Loughton/Debden as well as building on virtually every bit of green still left in Loughton/Debden as well as on the library!! This considering that already there is totally insufficient and inadequate car parking spaces especially at Loughton and Debden stations as a result of which all our roads near the stations are constantly congested by the commuters parking when we as residents of these streets are unable to park our own cars near our houses already! Furthermore, as there will not be any parking left in either of the stations, nor in Clifton road parking, where on earth are the people living in the new properties are supposed to park considering that currently, most houses have at least 2 cars? You kept on banging on a bout creating more jobs! When you are closing all the car parks especially the one in Clifton Road which people use to park to go to the local shops, where are they supposed to park to use the local amenities and consequent upon which all the local shops on the High Road will have to shut as well which would necessarily lead to net loss of jobs and not increase in employment as you erroneously claim. Furthermore, the closure of the library car park is bound to affect the parking for the leisure facility and swimming pool, consequent upon which people won't even be able to use the only leisure facility available in Loughton! I wonder as to what inducements the councillors have had to even think of this irrational, crass and madcap and totally unthought through proposal? And is one of the usual local large construction companies going to get all the contracts again as usual? I sincerely hope that this crazy proposal 1, will be dropped as quickly as it has cropped up before it causes more severe damage to all our local amenities.
