This document has been created using information from the Council's database of responses to the Draft Local Plan Consultation 2016. Some elements of the full response such as formatting and images may not appear accurately. Should you wish to review the original response, please contact the Planning Policy team: ldfconsult@eppingforestdc.gov.uk

Letter or Email Response:

Please note my objections to the lower queens car park site. This car park is tucked away and the increase of building flats with more cars will have a significant impact on this area and the local business of queens road which are already struggling . If we are not loosing the car park spaces then in a sense this make the development worse. I would like to propose that we look at building some flats at Buckhurst Hill library and of course the Woollard centre in Bukchurst Hill as an alternative site. I believe it's possible that one site will come forward and then we could remove the queens road proposal. I have no problems with the site at Powell road and think this is probably a reasonable location but may face some objections from the nursing home business next door and surrounding neighbours . The queens road car work is the site which will have more impact on the village so should be revisited.
