**Subject:** Representation re the development of Saxon Way

I wish to raise an objection to the redevelopment of the community centre Saxon Way Waltham Abbey.

My objection is in regard to the proposal to build 67 flats and a community centre and only provide 45 parking spaces.

Saxon Way/ Tudor Way is served by narrow roads which are already congested with the access and egress to the local school

There is already a problem on the estate with attendees at the community centre causing congestion and the increasing use for car boot sales/ fetes.

Whilst I understand the need to modernise the community centre I believe the number of dwellings being proposed will cause further traffic and environmental problems within this location.
