

Please do not take Jessel Green away from us. I ask this not only on behalf of my husband and I , but for _____ , my neighbours, my community. I urge you to consider the importance of green spaces and especially for an area on the outskirts of London.

More and more research is strongly supporting the need for open green spaces to support the health and wellbeing of individuals. If you take Jessel Green, you solely will be responsible for adversely affecting the quality of life, health and recreation of thousands of people, families and communities.

Jessel Green is the heart of our community. We need Jessel Green to exist in order to support the health and wellbeing of our children and future generations. I urge you to look to brownfield sites for regeneration rather than tearing apart a community.

I leave you with the shuddering and harrowing words of the Manic Street Preachers “If you tolerate this, then your children will be next”.
