15th April 2018

Dear Sir

Ref Local Plan.

Since my previous letter of objection regarding the Local Plan, it has come to my notice that things have not been as open & frank in the decisions that were made without Appendices that should have been available to all concerned.

Epping Forest District Council are not following their own rules around site selection decisions, thus ignoring the residents wishes and are biased as to which elected Members live and where to dump a minimum of 1,300 homes in the bottle neck that already exists along Stewards Green Rd, Brook Rd, Bridge Hill & Ivy Chimney's Rd.

E.F.D.C. have simply not justified the site selection based on their very own evidence based approach, it shows an example of low professional standards and failure to be transparent with the process.

The Government have stressed again this week that Building on the Green Belt should only be used as a last resort.

Yours Sincerely,

 resident
Since 1967
