EPF/0921/19 1-7 Margaret Road

Committee OBJECT to this application.

The provision of two bungalows in this location would result in a loss of amenity for the immediate neighbours in terms of overlooking, loss of privacy, loss of light and general proximity to their boundary. It would constitute a cramped form of development as the two properties will result in a loss of amenity for existing properties due to reduced garden sizes. Committee also note the vast loss of greenery which has previously acted as a sound buffer.

Committee were concerned about the loss of parking, resulting from proposed dropped kerbs, in an area with severe parking issues. This would have a knock on effect of reducing the parking provision for the area as a whole.

Committee are extremely supportive of this type of housing and would request the applicant rethinks the layout of the proposal to respect neighbour concerns.

[Epping Town Council confirm they will attend and speak at Plans East to object to this proposal.](#)
