### REPRESENTATION

**To which Main Modification number and/or supporting document of the Local Plan does your representation relate to?**

MM no: 192

Supporting document reference:

**Do you consider this Main Modification and/or supporting document of the Local Plan to be:**

Legally compliant: Yes

Sound: Yes

If no, then which of the soundness test(s) does it fail?

**Please give details of why you consider the Main Modification and/or supporting document is not legally compliant or is unsound. Please be as precise as possible. If you wish to support the legal compliance, soundness of the Local Plan or compliance with the duty to co-operate, please also use this box to set out your comments.**

The proposed Main Modification MM192 (and Additional Modification AM181) that relate to this site and the corresponding allocation policy are noted and no objection to these are made.

We in particular support the proposed modification to the 'On-site Constraints' section of the policy, as highways work undertaken to date has not identified a need for a connection to the south. Therefore, flexibility to allow this to be considered further going forward is welcome and will avoid any potential undue constraint to delivery of the site given it would also necessitate the use of third party land.

**Please set out what change(s) you consider necessary to make the Main Modification and/or supporting document legally compliant or sound, having regard to the test you have identified in the question above (Positively prepared/Justified/Effective/Consistent with national policy) where this relates to soundness. You will need to say why this change will make the Submission Version of the Local Plan legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.**
