### Letter or Email Response:

Dear Sir, My wife has lived in the area all her life and I moved here 31 years ago when we bought our first house in Goldingham Avenue overlooking the green at the at the highest point. We have spent many a happy hour with our young family on the green through every season from sledging and making snowmen to learning to ride a bike to playing football, and enjoying picnics with friends and family all of which were very envious of what we had on our doorstep. Unfortunately we had to move because the house got to small but we still use the green. Our children have had lots of varied experiences including hot air balloons landing, air ambulance landing ,fire work displays at the pub and fun days. Our children have now grown up and moved from the area but still continue with their outside life style which we feel was encouraged by having such a wonderful environment on their doorstep. My wife and I still walk to the top of the green and admire the views summer and winter. We strongly feel that future generations would miss out on all the wonderful experiences that our family have enjoyed if the green was to be developed and built on. Yours sincerely
