Re. new section on Trees.

Although this paragraph acknowledges the ‘visual amenity’ of trees and hedgerows, there is no mention of their importance as green corridors for wildlife.

7. Please set out what change(s) you consider necessary to make the **Main Modification and/or supporting document** legally compliant or sound, having regard to the test you have identified in the question above (Positively prepared/Justified/Effective/Consistent with national policy) where this relates to soundness. You will need to say why this change will make the Submission Version of the Local Plan legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

We would like to see a reference to the importance of trees and hedgerows as green corridors along with their contribution to the biodiversity of wildlife. The hedgerow and brook along the northern boundary would form the new defensible Green Belt boundary and should be strengthened/enhanced and maintained 'in perpetuity'.

8. Have you attached any documents with this representation which specifically relate to an MM or supporting document?
