Do you consider this Main Modification and/or supporting document of the Local Plan to be:

Legally compliant: Yes

Sound: No

If no, then which of the soundness test(s) does it fail? Justified

Please give details of why you consider the Main Modification and/or supporting document is not legally compliant or is unsound. Please be as precise as possible. If you wish to support the legal compliance, soundness of the Local Plan or compliance with the duty to co-operate, please also use this box to set out your comments.

I feel that green belt was set up for a purpose, to allow rural areas to continue to be beautiful parts of the UK where everyone has the opportunity to breathe fresh air and enjoy nature. It wasn't set up to expand built up areas even more, destroy habitat of wildlife and knock down trees which are our lifeblood.

Please set out what change(s) you consider necessary to make the Main Modification and/or supporting document legally compliant or sound, having regard to the test you have identified in the question above (Positively prepared/Justified/Effective/Consistent with national policy) where this relates to soundness. You will need to say why this change will make the Submission Version of the Local Plan legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

Destroy natural habitats, pollute the water course, deprive inhabitants of Sheering a beautiful area in which to walk and enjoy the countryside.
