Theydon Bois (Draft Policy P 8)

**No**

Please provide reasons for your view on Theydon Bois:

The site at Coppice Farm, Coppice Row is the best option, since it involves the least disruption for the lives of everyone in Theydon Bois, both during and after construction. It is also the only site with rotting concrete buildings currently on it and is more brown field than green. It will not be stretching the village boundary in a way that ruins the character of Theydon Bois, since the forest is the obvious boundary and this is an infill site.

Lower down the road, residential properties back onto the forest, as they do in Piercing Hill and Theydon Road. Building on Coppice Farm is the only sensible option the only option for Theydon Bois.

7. Do you agree with the approach to infrastructure provision being proposed in the plan?

**Disagree**

Please explain your choice in Question 7:

The numbers of extra cars on the road will put pressure on roads that will/can not be expanded, like the route to the M25 Junction and through Epping High Street. This increases pollution as well has traffic jams.
