Part B

REPRESENTATION

To which Main Modification number and/or supporting document of the Local Plan does your representation relate to?

MM no: 201

Supporting document reference: B. Sustainability Appraisal Report Addendum, June 2021 (ED128/ EB210)

Do you consider this Main Modification and/or supporting document of the Local Plan to be:

Legally compliant: Yes

Sound: No

If no, then which of the soundness test(s) does it fail? Positively prepared, Effective, Justified, Consistent with national policy

Please give details of why you consider the Main Modification and/or supporting document is not legally compliant or is unsound. Please be as precise as possible. If you wish to support the legal compliance, soundness of the Local Plan or compliance with the duty to co-operate, please also use this box to set out your comments.

I object to the removal of any Green Belt. There is plenty of empty property throughout this country that could be re-organised into homes. Constructing new homes and removing green belt is lazy and greedy. It will solve a problem in the short term whilst creating huge short term damage to our ecosystem that cannot be undone. Go back to unused urban spaces and renew those. Stop taking away natural habitat and ruining that chances of any future generation.

Please set out what change(s) you consider necessary to make the Main Modification and/or supporting document legally compliant or sound, having regard to the test you have identified in the question above (Positively prepared/Justified/Effective/Consistent with national policy) where this relates to soundness. You will need to say why this change will make the Submission Version of the Local Plan legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

I propose that the land in question is left as green belt
