Subject: Proposal of 30 houses on Oak hill road
Date: 29 January 2018 23:01:28

Dear Sirs

I understand you have proposal under review for 33 new properties at the junction of Tysea Hill and Oak Hill Road. I use this junction every day and know how extremely dangerous this turning is, are you sure the increase in I traffic to this junction would not cause very serious and dangerous problems to the community.

I understand you have not followed correct procedures in informing the residents of your proposal, surely this is not acceptable. If this proposal does go ahead can you guarantee the problems I have with flooding to the rent of many property will not get worse. I was of the opinion this piece of land was greenbelt, surely you can not just pass the proposed built without government permission.

Yours Sincerely

Bill Nash
