I do not see how a Plan can be sound if it only sets a minimum number of homes. Without a maximum number, it is as long as a piece of string.
In October 2021 the then Inspector directly sought views as to whether the 2018-Based Household Projections by the National Statistics Office should be adopted. I can find no record of a reply other than a confirmation of receiving my response.

This aspect may also be relevant to MM15.

7. Please set out what change(s) you consider necessary to make the **further Main Modification and/or supporting document** legally compliant or sound, having regard to the test you have identified in the question above (Positively prepared/Justified/Effective/Consistent with national policy) where this relates to soundness. You will need to say why this change will make the Submission Version of the Local Plan legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise and concise as possible. If your response exceeds 300 words please also provide an executive summary of no more than 300 words.

The Plan needs to be sound in explaining what housing projections have been adopted and why.

Also it should explain why 11,400 has become a "minimum" rather than "approximate".

The Plan must also clarify why there is to be no maximum figure for homes, otherwise it is a misleading Plan.
