### Letter or Email Response:

Dear Sir/Madam, ...Redacted.... I have to spend a lot of time in my flat and enjoy the outlook from my living room window. The green is well used by children and families for recreation use such playing ball games and in the Summer months a local primary school even makes use of the green as an outdoor classroom. At Christmas time it is a joy to see children out on the green playing with their Christmas presents. At other times of the year I enjoy seeing the spring blossom on the trees and migrating geese and throughout the year other birdlife as well as foxes and squirrels. These are important things in my life. My dog, Pippa, is my companion and my carer, ...Redacted..., takes Pippa for walks on Jessel Green where she enjoys meeting and talking to other dog walkers which helps create a community spirit. I enjoy the peace and quiet of this location and while the Green Belt is important I would support some building in the Green Belt if it means that Jessel Green, which is an accessible green space for local residents, could be saved from any development. Finally I would like to mention that the Air Ambulance uses Jessel Green when responding to medical emergencies and has landed four times in recent weeks. Regards, ...Redacted....
