This document has been created using information from the Council's database of responses to the Draft Local Plan Consultation 2016. Some elements of the full response such as formatting and images may not appear accurately. Should you wish to review the original response, please contact the Planning Policy team: ldfconsult@eppingforestdc.gov.uk

Letter or Email Response:

1 - No urban intensification of our town please- we need a proper planning for future homes.... Access to facilities is a such as schools and transport must be taken into consideration.... if the facilities are over stretch... then its not wise to add more pressure on already failing facilities. 2 - we need to preserve the green belt and public park so it can be passed on to other generation as part of our heritage. 3-local authorities- should do more to provide sufficient public service and also allow for expansion of population. 4-central line is at its capacity any further pressure will certainly result in more in interruption and continuous break down for over used trains. (more misery for commuters) 5-Its not wise to add high rise building in an area predominantly 2 story building. (a sight for sore eye) 3 / 4 is acceptable anything above that will reflect bad the planning by the Epping forest council. 6 -the scheme they are going ahead with in Burton Road (Debden) is a classical example of ultra modern housing scheme in a traditional pre- war housing area. (YOU CANT MIX THE TWO TOGEATHER) just doesn't look right.
