### Letter or Email Response:

To whom it may concern, As a resident of **Redacted....** Loughton, I strongly object to the building of 114 new homes on the site of the current Loughton station car park. This new development will seriously affect my quality of life. Traffic & parking in this area is already extremely congested. I walk my granddaughter to and from school through the lane leading to Loughton station. If this proposed building goes ahead, I will have no choice but to drive her thus adding to already overcrowding on the local roads. It is currently a nightmare at times trying to manoeuvre a buggy or scooter between the parked cars on our road. I dread to think what chaos this new development will cause. There is a tennis club situated at the end of Lower Park road & the traffic up and down is so dangerous for local children, not all drivers are considerate to the fact that little ones are about. In my opinion it is nothing short of serious negligence to allow for the addition of more drivers competing for parking space. Please reconsider this highly disruptive & controversial new development. Yours faithfully, Anne Aherne
