This document has been created using information from the Council's database of responses to the Draft Local Plan Consultation 2016. Some elements of the full response such as formatting and images may not appear accurately. Should you wish to review the original response, please contact the Planning Policy team: [ldfconsult@eppingforestdc.gov.uk](mailto:ldfconsult@eppingforestdc.gov.uk)

### Letter or Email Response:

I am opposed to the proposals for the following reasons: There are no concrete responses to how the infrastructure is in place for the number of houses that are proposed to be built. The local schools are already full to capacity. Where will the extra schools needed be built, if all available space is being used to build houses? There will need to be more GPs to deal with the demand. The Central Line is already very crowded during commuting hours, it could not cope with the extra demand. Traffic is already very heavy in the area, local government are experiencing more cuts than ever before, where will the money come from to build new roads to cope with extra need? How could teachers and nurses be able to afford to buy a property in the area? They are not eligible for London Weighting? If all local authorities in the area are carrying out similar housing development, how is the sewage system going to be able to cope? There will be no recreational space for our children to play in. The reason a lot of people choose to live in Loughton, is because of the green spaces. If the proposals go ahead, this will no longer be the case.
