Part B

REPRESENTATION

To which Main Modification number and/or supporting document of the Local Plan does your representation relate to?

MM no: 87

Supporting document reference:

Do you consider this Main Modification and/or supporting document of the Local Plan to be:

Legally compliant: Yes

Sound: Yes

If no, then which of the soundness test(s) does it fail?

Please give details of why you consider the Main Modification and/or supporting document is not legally compliant or is unsound. Please be as precise as possible. If you wish to support the legal compliance, soundness of the Local Plan or compliance with the duty to co-operate, please also use this box to set out your comments.

We ask that the references to North Weald Bassett Part L after para (v) and others where public rights of way and linkages east-west are mentioned, that in all cases within the Plan that enhancements are made available for use by ALL users, including equestrians. The Plan at present does not specify users and there is a danger that only walkers and cyclists are accommodated with equestrians being omitted. North Weald Bassett is an area with an existing bridleway network and this should be retained and enhanced for ALL users.

Please set out what change(s) you consider necessary to make the Main Modification and/or supporting document legally compliant or sound, having regard to the test you have identified in the question above (Positively prepared/Justified/Effective/Consistent with national policy) where this relates to soundness. You will need to say why this change will make the Submission Version of the Local Plan legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.
