7. Do you agree with the approach to infrastructure provision being proposed in the plan?

Disagree

Please explain your choice in Question 7:

Having seen historic promises of enlarging infrastructures and knowing how long; for example, it takes to get a Dr's appointment. I do not believe - due to the numbers of houses being introduced; there will be enough infrastructure introduced not to be detrimental to the way and standard of life in my town.

8. An Interim Sustainability Appraisal has been commissioned to support the Draft Local Plan. We would welcome any comments you may have on this.

I find it very difficult to accept that although Ringway Jacobs was made aware of years of planning for a local cycle path (between Loughton & Chigwell or Chigwell & Buckhurst Hill), that they are building more lanes at Debden through to Homebase at Loughton, without a cycle lane- therefore, your idea of sustainability and mine are way apart. In this modern era, I simply can't understand why you wouldn't continue the cycle lane form Buckingham Court down to at least the hub which is Debden Tube Station.

9. Do you wish to comment on any other policies in the Draft Local Plan?

I find it very difficult to accept that you wish to build over 68% of Loughton's open spaces; it frightens me that social decline over the next generation will be tough.
