7. Do you agree with the approach to infrastructure provision being proposed in the plan?

Strongly disagree

Please explain your choice in Question 7:

No detail - no commitment - no integrated approach. For example - a local Sustainability and Transformation Plan for health is being drafted and should be published in mid-December. For example - all local schools are full to overflowing and some are about to expand, to cope with current expected demand. Where is the strategy to cope with the influx of new pupils which new housing will bring?

8. An Interim Sustainability Appraisal has been commissioned to support the Draft Local Plan. We would welcome any comments you may have on this.
-

9. Do you wish to comment on any other policies in the Draft Local Plan?

Incorporate the strategic plans for other public organisations - health, education, transport and so on. The draft plan seems vague in places and lacks community cohesion, particularly with other bodies which provide public services.
