### Letter or Email Response:

Dear Sirs I am writing to say I oppose the building of houses on various sites in your local draft plan. I believe it will completely change the character of the area and affect the well being of the local community by taking so much green space away. School children stop on the way home from school to use the swing park, locals use it for dog walking and various other activities take place there. During the six week holidays Playgroups come on various days to run outside play time for under 5's. In July every year a Fun Day is organised which brings the community together. There will be nowhere for any of these to take place. I understand that more housing is needed but I believe that the sites chosen will not benefit this new population as they will have even less recreational facilities. I also understand the farmland at the back of Debden Park School towards Davenant School is not having its lease renewed. Would this not be a better place to build on - and go a long way to meeting the councils target for housing and maybe a school. Also the field behind Hillyfields and running along Rectory Lane (never used and no park) would be another site to think about as it would have less of an impact on peoples lives.
