Please provide reasons for your view on Loughton:

I moved to Debden primarily due to its abundance of green fields. I had a daily walk in the site SR-0356 and it helps me to bond with my child and also provides a venue to exercise. By allocating site SR-0356 to residential development, you are losing a piece of area that residents could use which will affect their quality of life.

7. Do you agree with the approach to infrastructure provision being proposed in the plan?

Strongly disagree

Please explain your choice in Question 7:

There is no concrete plans to improve the infrastructure to accommodate the increase population. For example, in health, there already a long waiting time for an appointment. With the increased population, should we be expecting an even longer waiting time? By attempting to increase population before resolving the current squeeze on medical appointments, it looks like the Draft Local Plan is trying to run before it can walk.
